

THAMES VALLEY

CONSTRUCTION & CIVIL ENGINEERING LTD.

We are a reinforced concrete subcontractor specialists with over 15 years of experience delivering projects such as concrete frames, motorway/highway bridge structures and retaining walls, radius tanks for the water treatment industry, large blast walls for the munitions industry as well as slabs and RC structures for the metal recycling industry up to the contract value of £5 million.

We pride ourselves in delivering high quality projects safely, on time and within budget.

We have a long standing trustworthy relationship with many clients whom we work with to continue to develop a safer and more sustainable environment in which we operate.

We own a substantial amount of formwork plant and offer **very competitive** rates on tenders and contracts.

We are an **experienced** company and have built up a large **reputable** workforce who are also available on labour only contracts Nationwide.

We are  and  accredited and a  **ROSPA** Member

We are **preferred subcontractors** for Bam Construct UK, Willmott Dixon Limited, Dawnus, Carillion and Vinci. We have also been **principal contractors** for Sims Group, Bird Group, Leekes Ltd. and Quinn Group.

Ysbyty Aneurin Bevan

2 Storey RC Frame
Value: £1.2million

Your timely completion of the concrete frame has enabled this challenging contract to be in a position to take forward for a successful completion.

Tim Chell, Construction Director

CSCCI

5 Storey RC Frame
Value: £700k

The work was completed incident and accident free, a testament to their positive attitude to Health and Safety...a well organised approach and professional manner.

Simon Williams, Construction Manager

Cochrane Building

6 Storey RC Frame
Value: £1.1million

Many thanks for all of the efforts made by TVC who have worked every conceivable hour to achieve programme dates in the most safe and efficient manner. The Cochrane building is the highest scoring Vinci site for safety in the UK, again thank-you for helping making it such a clean and safe site.

Andrew Warring, Project Manager

M4 Widening

Reinforced Concrete
Bridge Structures
Value: £1.7million

Your excellent contribution to the successful opening of this section...a credit to the industry!

S.M. Park, Project Director

Kingsway Multi-Storey

7 Storey RC Multi Storey
Car Park
Value: £4.2million

Thames Valley Construction proved to be a valuable asset in the successful completion of the project. They're attitude towards the construction process provided all the requirements needed, to meet a quality project and achieve client satisfaction.

Nigel Talbot, Project Manager

Newport Campus

4 Storey RC Frame
Value: £2.8million

Logistically a difficult frame to construct, but Thames Valley were very proactive and did a fantastic job. Excellent Health and Safety on site, collaborative working approach and two full time supervisors on site, all enabled Thames Valley to deliver a concrete frame to a very high quality and 4 weeks ahead of programme.

Kanji Kerai BSc (Hons) MCIQB, Project Director
